

A2 Level Economics

The skills required for Economics - numeracy, problem-solving and the ability to communicate clearly with different groups of people - are valued highly among employers. These skills, together with a thorough knowledge of the workings of the economic system which affects so many aspects of our lives (both personal and in work), will enhance your employability. If you are interested in how the world works and enjoy lively debates about how it ought to work, Economics should appeal to you.

A2:

Unit 3: Business Economics and Economic Efficiency

Unit 4: The Global Economy
