

## A2 Level English Language and Literature

English Language and Literature is an exciting blend of different approaches to fiction and non-fiction, as well as involving study of spoken language in a variety of situations. The subject touches on and complements other subject areas such as Psychology, Sociology, History, Drama and Media Studies, and is particularly favoured by university Law departments. You will learn to describe how language works and will extend this study to some works of literature in both years.

A2:

Unit 3: Varieties in Language and Literature

Unit 4: Presenting the World
