

A2 Level Government and Politics

What is human nature? Should we abolish the state? Is a revolution the only way to overthrow capitalism? How do ideas influence government policy? Is the Prime Minister ‘power hungry’ or is he a well-meaning leader who has the interests of the country at heart? Why don’t many young people bother voting? The Government and Politics A Level will get you to debate, to become critical not only of the behaviour of governments and individual politicians, but of the ideas that motivate them. This course promotes the understanding and questioning of the British political system.
