

A2 Level Sociology

Sociology is the study of societies and the way that they shape people’s shared behaviours, beliefs and identity. Sociology is an extremely diverse and compelling discipline, and this is a particularly fascinating time to study it. As society continues to change, Sociology develops and evolves with it. It enables us to make sense of the rapidly changing world that we live in, and understand our roles within it. This course explores the concept that the way we think, behave and feel, indeed our very sense of identity, is socially produced.

A2:

Unit 3: Beliefs in Society; Global Development; Mass Media; Power and Politics

Unit 4: Crime and Deviance with Theory and Methods; Stratification and Differentiation with Theory and Methods
