

## National Diploma for IT Practitioners (General)

This course will lead to specialism in: IT and business systems, software design and development, and computer games development. You will develop knowledge, understanding and practical skills in the fields of ICT, web design and e-commerce, data communication, and expert systems computing. This BTEC National Diploma is a specialist qualification that focuses on particular aspects of employment within the sector and is equivalent to three A Levels. It provides the underpinning knowledge and understanding for IT practitioners or technicians in employment who would like to obtain a Level 3 qualification.
