

### National Diploma in Music Technology (Level 3)

If you want to get into music, whether it is producing, recording, playing or learning about the industry, then this course is ideal. BSix has a dedicated recording studio, practice rooms, two Mac computer suites running Reason and Logic software, instruments and established industry links. You will gain practical skills and vital experience, as well as obtaining relevant qualifications, but above all else you will enjoy the course. It provides you with the opportunity to turn ideas and dreams into reality. You will study a range of units that involve (amongst other things): exploring and experimenting with music technology, using resources at your disposal, learning about software applications and allied technology through the creation of music, composing, arranging and recording pieces of music and providing evidence of understanding the equipment used through practical demonstrations and written assessments.
