

### National Diploma in Applied Science (Level 3)

The BTEC National Diploma in Applied Science is highly rewarding and provides a good alternative to Science AS/A2 Level. The course is designed with two main purposes – to outline the strong science background required at this level of study, and to put science into a useful context through applied learning. The core units will help you to develop a range of skills, including practical laboratory skills, presentation skills and written skills. At the end of two years you will have a portfolio of work which reflects your efforts over the course period.

Course Duration			How will I be assessed			Where do I go from here					Exam Board
3 Months	1 Year	2 Years	Assessment Practical	Assessment Written Exam	Coursework	Level 1	Level 2	Level 3	University	Employment
