COVID REGULATIONS: LATEST STEPS

As you may well know, the most recent government guidance requires students to wear masks in lessons as well as in communal areas. This means that face coverings should be worn, with immediate effect, in all indoor parts of the college site except when using the dining facilities. Unless you have exemption, please observe this rule at all times. It will be reviewed by ministers on Wednesday 26 January and we will update you on whatever is decided.

Thank you for your cooperation. Let us work together to minimise the disruption caused by covid. Despite its further influence, I hope you have a happy and successful 2022 and continue to find your experience of BSix an enjoyable and rewarding one.

Best wishes.

Kevin Watson.
Principal.
